To whom it may concern

I would be more than happy to recommend Bart Consulting – Your MYOB Specialist.

As a start up business it was really important to meet and work with an Accountant / Book keeper who could assist us promptly and effectively in growing our business, as we had been operational for only a short time.

Sean is passionate about MYOB and his enthusiasm is infectious! After initially meeting Sean and having the first lot of training and assistance it was easy to see where our business could improve with MYOB and Sean's assistance.

Kind Regards,

Nicola Cunnington
