To Whom it May Concern

Sean Dickens of Bart Consulting was recommended to Purcell Taylor Lawyers to assist the firm to set up MYOB at the beginning of 2009.

Sean's knowledge of MYOB is extensive and his level of service is exceptional.

Everything from the initial set up, the integration of data from our previous accounting programme through to the actual entering of data were thoroughly covered as part of Sean's consultation.

Sean ensures you understand how MYOB operates and if there is an easy way of doing anything he will pass this knowledge on to you.

I cannot speak highly enough of the assistance Sean gave the company and have no hesitation in recommending the services of Bart Consulting.
